Creating cocktails has a lot to do with alchemy: fresh ingredients, artisan preparations, selected distillates and a team of passionate people that make up creative recipes with surprising flavours.

Our cocktails are inspired by the botanical universe, with a special focus on tea which we prepare following different and innovative techniques mixed with traditional processes. Fresh vegetables and fruits, infusions, ingredients that come from the other side of the world. Each recipe is a story that deserves to be drunk.

Let our bartenders recommend a perfect drink for you and discover genuine and fresh signature cocktails.

* A 5% of the price of the cocktails will be donated to projects for the preservation of the environment through the organizations Project Amazonas and The Ocean Cleanup.
